

SiteTec Recycling unit, type R300E

R300E

R500E

Unit includes:

- | | |
|-------------|--|
| Skid | : Steel frame with forklift pockets and corner blocks on bottom |
| Dimensions | : $\pm 244 \times 175 \times 244$ cm |
| Weight | : ± 2.500 kg |
| Capacity | : 300 liter/min, max 20% solids in less than 1% out @ 60 sec viscosity
1.2 gr/cc spec. gravity |
| Cones | : 2 x 4" and 2 x 5" |
| Screen area | : 2,3 m ² |
| Drive | : 22 kW electric |
| Pump | : 1x MCM circulation pump and 1x Tsurumi transfer pump |
| Tank | : Total volume circulation tank approx. 1.2 m ³ |
| Controls | : Stainless steel main control box on the unit |
| Optional | : - Electric valves on outlet c/w remote control with 20 mtr cable
- Electric connection for pitpump (switched automatically by float switches)
- Electric submersible pitpump |
